NOTES ON NEWS OF THE DAY.

MR. PARNELL'S health is so seriously impaired that his physicians have ordered him to the south of France till next summer. It is not unlikely that Gladstone will remain to lead the Home Rule forces after he is dead.

ELMIRA has a case of husband poisoning, the victim being David S. Ramsey and the murderer his former wife, Josephine Artz. The woman is locked up at Alford, Ill. The case of Mrs. Maybrick will make Josephine uneasy.

IDAHO has completed her constitution, closed her convention, and is getting ready to knock at the door of the Union next winter. As the constitution bars out Mormon polygamy, the chief objection to Idaho is removed. There is no doubt that she possesses the requisite population.

RAINS fell in Virginia and the vicinity of Washington Tuesday night, which did so much damage along the line of the Washington and Ohio railroad that no trains passed over the injured section yesterday. The abnormally pleasant weather is not yet, it appears, universally prevalent.

CARROLL E. SMITH, editor of the Syracuse Journal, is positively known to be booked for the post office in his city, and will probably receive his appointment on the President's return from Bar Harbor. This is as it should be. The editor of the Democratic Courier was made Postmaster by Mr. Cleveland. Mr. Smith has done yeoman's work for his party for a score of years.

THERE is a watermelon patch in Georgia of 800 acres owned by the Phillips Melon Company. Lanes running through it two miles long are flanked by melons on either side as far as the eye can reach, many of them weighing 60 pounds. Carloads are shipped in which the lightest melon is not below 40 pounds. The company will ship 400 carloads and make a profit of \$150 on each load. This beats cotton or iron.

HUGO POLLITZ, a prosperous New-York merchant, died yesterday from overdoses of chloroform taken to relieve headache. He had taken the doses since he was a youth. The headache increased in severity, whereupon he enlarged the doses. On Tuesday he ordered four ten cent doses. At three o'clock yesterday he locked himself in his room for a sleep, and at nine o'clock was found dead. There is a moral to the story which does not need recital.

MRS. MAYBRICK'S conviction of murder in England is something of a surprise to the American people, since there was enough proof that her husband was a confirmed arsenic eater to give room for a doubt. No American jury would have convicted her. The sentiment of disapproval is so strong that the unhappy woman will probably receive either a new trial or a commutation of sentence. Mrs. Maybrick is an American, born in Alabama and some time a resident of Brooklyn. Jefferson Davis has denied that she is his niece.

EBEN S. ALLEN, President of the 43d street and Grand-street ferry railroad company, New York, was arrested yesterday for issuing bogus stock, from the sales of which he realized about \$125,000. In Minneapolis J. F. Collum was arrested for forging the name of his employer and benefactor, J. S. Blaisdell, to the amount of \$275,000. Collum had been Blaisdell's attorney, and the latter indorsed a note of \$15,000 for him. This note was made the basis of the forgeries. It takes a big amount of other people's money to start a \$1,000 clerk when he decides to "go into finance."

THERE is not the slightest doubt that Mr. Murt Halstead is in the Senatorial canvass to stay, and that he has a host of devoted friends in the Buckeye state. If Mr. Halstead aspires to the Senate with the honorable purpose of representing Ohio and the country's interests, he will be able to make himself very useful in his position. But if he wishes to go there to make it hot for the Senators who rejected his nomination to Berlin, it would be better for Ohio to choose McKinley, Foster, Butterworth, Grosvenor, Hayes, or almost any other Republican of prominence. The rejection of Halstead may have been unwise, but the Senators had great personal provocation.

THE Northeastern Indian Commission yesterday secured the consent of the Gull Lake Indians to the cession of the Chippewa lands in Minnesota. This success follows that at Red Lake and White Earth, leads them to believe that the completion of the transfer will be easy. The Commission now goes to Leech Lake, and will visit all the tribes around the headwaters of the Mississippi. The lands negotiated for amount to 4,000,000 acres, and are very fertile. The present administration has been very successful in recovering lands for settlement. It has made a record of 2,000,000 acres in Oklahoma, 11,000,000 in Dakota and Minnesota, 4,000,000 are assured. Here are 27,000 square miles, an area equal to that of New Hampshire, Vermont and Massachusetts combined. It would provide 100,000 farms of 100 acres each capable of supporting a population of 600,000 by agriculture alone.

It was a unique and distressful tragedy that happened at Buffalo yesterday. L. B. Crocker had arranged to give his family an excursion on his pleasure yacht, run by a naphtha engine. After the entire party, consisting of Crocker, his four children and a friend named Miss McLean, went aboard, there was a succession of explosions, and the yacht was enveloped in flames. Three of Crocker's children were burned to death in sight of the parties who were trying to rescue them, and one was blown into the water and rescued. Miss McLean was also saved. Mr. Crocker barely escaped with his life, and a carpenter on board named Rugestein perished. The condition of Crocker, his only surviving child and Miss McLean is serious, and Crocker is insane with grief. His wife is very ill, and this grief is expected to cause a fatal result. The explosion is supposed to have been caused by a leak in the engine.

PASSENGERS ON A TRAIN ROBBED.

One Man with Shot Gun and a Large Knife Robs a Number of Coaches.

MINNEAPOLIS, Minn., Aug. 8.—The Wisconsin Central passenger train from Chicago, which passed Chippewa Falls, Wis., at 4 o'clock this morning, was held up and robbed by a single man between Chippewa Falls and Abbotford half an hour before. At the hour named a man entered one of the sleeping cars, commanded the conductor and porter to throw up their hands and proceeded to go through them, taking all they had. One passenger was also robbed and a shot or two fired at the porter, but no one was hit. The robber pulled the bell-rope as soon as he had completed the robbery, and when the train came to a stop he jumped off and escaped. No attempts were made to follow him. Jacob Litt, the Milwaukee and Minneapolis theatrical manager, was a passenger on the sleeper, and the ball fired at the porter passed within an inch of his face. The man had the appearance of a woodsman. He wore a slouch hat and carried a long gun and a big knife in his belt. He entered the sleeper and drew the porter to one end of the car. The porter did some yelling to awake the passengers, whereupon the robber fired. He took from the conductor \$30 and a silver watch, from the porter a gold watch and a small amount of money and a passenger some money and a watch. He tackled another passenger, but the latter told him the conductor had all his money. The man, however, had \$500 on his person.

THE Naval Appropriation bill passed at the last session of Congress, provided for the purchase of electric plants for the Navy Yards at New York, Norfolk, San Francisco and Washington. At the Bureau of Yards and Docks proposals for furnishing the plant for the Washington Navy Yard have been opened. No decision will be reached for several days. At the request of the Postmaster General the Secretary of War has directed the Quartermaster General to instruct his subordinates to pay no more Government telegraph bills until the rates to be paid are furnished by the Postmaster General.

It is understood that the board to which Secretary Tracey referred the report upon the trial of the Petrol has found from the data furnished that the ship came up to all requirements.

Paymaster J. Q. Barton has been ordered to the Pensacola. Pay Inspector John H. Stevenson has been detached from the Pensacola, ordered to settle his accounts, and await orders.

Travels of absence have been extended as follows: Captain John M. Norvell, Twelfth Infantry, four months; Second Lieutenant Charles C. Ballou, Sixteenth Infantry, one month.

The Waterways Convention.

WEST-SUPERIOR, Wis., Aug. 8.—At the Waterways Convention yesterday Hon. H. W. Seymour, of Sault Ste. Marie, spoke of the canal and the improvements there, and declared his intention to finance through the canal.

He believed there should be greater appropriations to support the canal. J. G. Keith, of Chicago, presented a comparison of the treatment by the Government of the water and rail routes for the two rail systems terminating in Duluth. The Government gave 47,000,000 acres of land worth \$95,000,000, while for improving the outlets of Lake Superior the Government gave 750,000 acres and a total of \$4,028,000.

Four Dead Bodies Found.

HELENA, Montana, Aug. 8.—The finding of the dead bodies of "Ollie" Jones, his wife and two other persons was reported yesterday from Corvallis, a small town in the Bitter Root Valley in Western Montana. A young girl, who had been shot in the hip, was also found on Big Hole Mountain. All of the dead had been shot in the back. No party was formed to bring in the bodies. Further details of the affair could be obtained, as Corvallis is without telegraphic facilities. Jones was married three weeks ago and was on the road to his ranch.

PRESIDENT HARRISON AND PARTY

Left Boston This Forenoon on Special Train En Route to Bar Harbor.

By Telegram to The Freeman.

BOSTON, Mass., Aug. 8.—President Harrison arose much refreshed this morning and pleasantly received the early greetings of the members of his party and his hosts, representing the State and City. At 7 o'clock breakfast was served in the Ebony room of the Vendome, the party in addition to the President being Acting Governor Brackett, Adjutant General Dalton, Secretary Windom, Secretary of the Navy, Mr. Hart, War Department Secretary Halford, and Colonel Mansfield. Shortly after 8 o'clock 20 men representing the Lancers and half the First Battalion of Cavalry, who had been chosen to act as out-riders on the road to the depot, made up. The train drew up and when the President made his appearance he was greeted with hearty cheers. He was accompanied in the first carriage by Lieutenant Governor Brackett and Adjutant Dalton. In the second carriage were Colonel Mansfield, Major Hart, and War Department Secretary Halford, and Colonel Mansfield. The train moved out of the depot and the President left the environment of the Vendome. The street in front of the hotel was thronged with people who cheered the Chief Executive as he passed while he pleasantly bowed right and left. The march continued about 30 minutes. A crowd of several thousand persons were waiting at the station and received the President with noisy demonstrations of welcome, which continued as he was escorted through the station to the train. The President lingered a moment on the car platform, but politely ignored the cheers for a speech. As the train moved out of the depot and the boom of cannon and cheers of the crowd the President appeared on the platform and bowed his farewell until the train disappeared.

HAVERHILL, Mass., Aug. 8.—At the Knoolington depot just outside of Boston, crowds of people lined the tracks cheering the President, who, standing hat in hand on the platform of his car, bowed his acknowledgments. The crossing passed, the President entered his car, and substituting a safe traveling hat for his silk one, looked out of the window and waved his hand to the people. He took up a newspaper and made himself comfortable, but spared time to meet many members of his traveling party and to say a pleasant word to all.

EXETER, N. H., Aug. 8.—The first great demonstration of the departure from Boston was made at South Lawrence, where the train stopped. There was an enormous crowd around the depot, which cheered as the train stopped, guns thundered a salute, flags waved and a band played lively airs. The people crowded the platform and were perched upon all possible places which promised a view. The President went to the rear of his car as it entered the depot and shook the hands of the hundreds of people in waiting. The train stopped, and the President entered his car, and substituted a safe traveling hat for his silk one, looked out of the window and waved his hand to the people. He took up a newspaper and made himself comfortable, but spared time to meet many members of his traveling party and to say a pleasant word to all.

THE FARMERS AND THE TAXES.

The State Farmers' Union has been holding a very large and interesting convention at Syracuse this week. The chief topic of discussion was taxation, and the sentiment of the convention showed that the farmers of the state feel that they are unduly and unequally taxed. They believe that a great deal of personal property is escaping its share of the public burdens, and a resolution was adopted at the meeting that the farmers of the state should vote for no candidate for the Legislature who would not give a pledge to do his utmost for the relief of real estate from that portion of the tax burden which is unjustly placed upon it.

Officers who have the duty of hunting up and assessing the taxable property within the state are subjected to many difficulties and embarrassments. Personal property is fully concealed, and when brought to light there is a great deal of hard swearing to lower its valuation. Then the threat is made by great and important corporations that if their stock is taxed they will remove to some other state where better terms can be secured, thus involving a loss of valuable capital and of useful employment to workingmen. We think the assessing officials generally entitled to credit for doing their duty honestly and to the best of their ability. But resolutions by Farmers' Unions will not bring hidden property to light, and any reform that may be effected in trying to deal with it must continue to be partial and unequal. Let them, however, continue their search, and tax every dollar of properly taxable property that they can find.

But in the meantime there is a very simple and practicable method of relieving the tax-burden upon real estate. The bills for taxing the liquor traffic passed by the Legislature last winter would have increased the public revenues from that source not less than \$5,000,000, thus leaving in the pockets of the farmers five dollars in every twelve that they are now called to pay for state expenses. The liquor traffic is abundantly able to pay it. Its sales in the United States last year amounted to \$900,000,000, of which four-sevenths or more than \$500,000,000 is net profit. At least one-eighth of this business is conducted in the state of New York, making the profits \$60,000,000 to the trade in this state alone, from a business that requires practically no capital and only just enough intelligence and muscle to pour a glass of liquor and hand it across the counter. The man whose sales amount to \$3,500 a year makes a net profit of \$2,000, and his proper proportion of the tax under both the Vedder and Crosby bill would be \$200, leaving him \$1,800 to hoard or apply to family expenses. As a matter of fact the liquor trade of this state paid \$12,000,000 to the federal government last year and did it cheerfully. Indeed, it fights all propositions to repeal this tax, so pleasant does it find the process or the result of paying it. But Congress will repeal it at the next session, and then it may be made available for state uses without increasing the burdens of the trade. The farmers cannot be blind to their opportunity. Let them amend the resolution adopted by the State Union, by declaring that they will not vote for any candidate for the Legislature who will not promise to vote for a high license law, and the relief will come. Such a vote by every farmer who feels the inequality of his tax burdens will assure a Legislature strong enough to pass a high license bill over the Governor's veto. This subject appeals with especial force to the farmers of the second and third districts of Ulster county, where, by the change of a few votes, high license Assemblymen can be elected to the next Legislature.

A RINGING PLATFORM.

Pennsylvania Republicans endorse the Workingman and Soldier. The Pennsylvania Republican State Convention, which met at Harrisburg yesterday, nominated Hon. Henry K. Boyer of Philadelphia for State Treasurer. The platform adopted has the true Republican ring. After reaffirming the principles enunciated at Chicago in 1888, recommending the count on the victory that followed, and thanking Hon. Matthew S. Quay for "the honorable and masterful way in which he conducted the national campaign," it says:

We cordially endorse the administration of President Benjamin Harrison, because it steadily devotes itself to the work of broad and intelligent administration by competent and trustworthy officials, and makes its rule of inflexible duty the faithful observance, not the hypocritical evasion, of the public service; because it proposes honestly to collect and collect to disburse the proceeds of public taxation, and seeks to do so without the burden that those persons and interests able to bear most shall bear least, and that in all cases the exactions and exorbitant forms of taxation shall be first reduced and abolished; because it is pledged to give to suffering communities needed help in the necessary work of public education in order that thereby the citizenship of the country may be elevated; because it aims to secure by adequate legislative protection against the offenses of suppressed and uncounted ballots, of perverted returns and false certificates of election, and of murderous methods of maintaining the records of Southern states, and touch the honor of the Southern people, making of elections in most of them a fraud or farce, whose fruits are a large body of Democratic usurpers now assuming to represent the states in the legislative halls of the nation; and because, more than all else, it makes as its cardinal aim in foreign affairs the vindication of the rights of America and the defense of the honor, safety and dignity of all Americans, and in domestic affairs the development of our own resources, the advancement of our own industries, and the upbuilding of the labor of our own people, against all of which the Democratic party stands as an ever-present menace.

Protection is the corner stone of our political faith. Its greatest blessing is that in protecting the American laborer and manufacturer it strengthens and builds up all interests, resulting in the promotion of a great diversity of business enterprises and a high market. It thereby nurtures not only the interests primarily and directly protected, but all interests, particularly agriculture, which finds in the certainty and higher prices of a home market its great advantage. Pennsylvania Democrats, who have recently and recently the unique distinction of being Democratic protectionists. At last, however, the controlling element in that party, not only in the nation but state, has unequivocally announced its antagonism to protection. It is our duty to take advantage of this opportunity, and press home this living issue. We will therefore deal Democracy its death blow in Pennsylvania.

If protection to American industry be the corner stone of our political faith, then the action to those who fought in defense of the Union is its capstone. We reverence the memory of those intrepid martyrs who gave up their lives upon the field of battle and of those other heroes, burdened with years and covered with scars who have striven to their rest. But tears will not suffice for the tens of thousands of brave soldiers who still survive. We advocate such amendments to the pension law as will make adequate provision for all honorably discharged veterans of the late war, whose advancing years, wounds or other infirmities disable them from total or partial self-support. Those who saved the nation from dissolution should be saved by the nation from poverty; and we heartily commend the wise and friendly liberality shown by Commissioner Tanner and the brother soldiers in the conscientious discharge of the duties of his office.

The Republican party having in 1886 declared in favor of the submission of the question of the Prohibition or sale of intoxicating liquors to a vote of the people, and having in two successive Legislatures, through the methods ordained by the Constitution, and in spite of Democratic opposition, provided the machinery for reaching a fair expression of the public sentiment, and having taken, declares that it is fully and honorably fulfilled its compact in this regard. REPUBLICANS ON PROHIBITION.

The Pennsylvania Republicans yesterday washed their hands of the Prohibition failure. The party pledged itself in 1886 to submit a constitutional amendment to the people. This pledge was faithfully carried out at the earliest opportunity, and the party's entire good faith was proved by the ordering of a special election, that the question might not be complicated with political issues. The political Prohibitionists were pleased, and seceded victory in the air. They made a rallying canvass. They succeeded in carrying a large number of counties that had never seen a spark of sympathy for the political Prohibition movement. But the people, without respect to party, were so well pleased with the results of the high license law, rigorously and successfully enforced everywhere, that they refused to sacrifice it for a principle that had not been equally successful in any state. The Republican party kept its pledge, and did its full duty; it was the people who defeated the amendment. The Pennsylvania Republicans having gained and preserved the high license law, will now give their efforts to its thorough enforcement.

The same party in this state is under pledge to submit a Prohibition amendment. That pledge will be completed next winter if a Republican Legislature is elected. The leader of the Prohibition party in this state has expressed a wish to have the amendment postponed, because he believes it will receive an overwhelming defeat. But the situation here differs from that in Pennsylvania. We have no high license law and virtually no law at all for the restriction of the liquor traffic. If a two-thirds high license Legislature is elected a high license law will be enacted. If the high license men are not strong enough to pass a bill over the Governor's veto, they will send the amendment to the people. If the political Prohibitionists do not want the amendment submitted, let them vote with the Republicans for a two-thirds majority, and give high license a fair trial.

A RINGING PLATFORM.

Pennsylvania Republicans endorse the Workingman and Soldier. The Pennsylvania Republican State Convention, which met at Harrisburg yesterday, nominated Hon. Henry K. Boyer of Philadelphia for State Treasurer. The platform adopted has the true Republican ring. After reaffirming the principles enunciated at Chicago in 1888, recommending the count on the victory that followed, and thanking Hon. Matthew S. Quay for "the honorable and masterful way in which he conducted the national campaign," it says:

We cordially endorse the administration of President Benjamin Harrison, because it steadily devotes itself to the work of broad and intelligent administration by competent and trustworthy officials, and makes its rule of inflexible duty the faithful observance, not the hypocritical evasion, of the public service; because it proposes honestly to collect and collect to disburse the proceeds of public taxation, and seeks to do so without the burden that those persons and interests able to bear most shall bear least, and that in all cases the exactions and exorbitant forms of taxation shall be first reduced and abolished; because it is pledged to give to suffering communities needed help in the necessary work of public education in order that thereby the citizenship of the country may be elevated; because it aims to secure by adequate legislative protection against the offenses of suppressed and uncounted ballots, of perverted returns and false certificates of election, and of murderous methods of maintaining the records of Southern states, and touch the honor of the Southern people, making of elections in most of them a fraud or farce, whose fruits are a large body of Democratic usurpers now assuming to represent the states in the legislative halls of the nation; and because, more than all else, it makes as its cardinal aim in foreign affairs the vindication of the rights of America and the defense of the honor, safety and dignity of all Americans, and in domestic affairs the development of our own resources, the advancement of our own industries, and the upbuilding of the labor of our own people, against all of which the Democratic party stands as an ever-present menace.

Protection is the corner stone of our political faith. Its greatest blessing is that in protecting the American laborer and manufacturer it strengthens and builds up all interests, resulting in the promotion of a great diversity of business enterprises and a high market. It thereby nurtures not only the interests primarily and directly protected, but all interests, particularly agriculture, which finds in the certainty and higher prices of a home market its great advantage. Pennsylvania Democrats, who have recently and recently the unique distinction of being Democratic protectionists. At last, however, the controlling element in that party, not only in the nation but state, has unequivocally announced its antagonism to protection. It is our duty to take advantage of this opportunity, and press home this living issue. We will therefore deal Democracy its death blow in Pennsylvania.

If protection to American industry be the corner stone of our political faith, then the action to those who fought in defense of the Union is its capstone. We reverence the memory of those intrepid martyrs who gave up their lives upon the field of battle and of those other heroes, burdened with years and covered with scars who have striven to their rest. But tears will not suffice for the tens of thousands of brave soldiers who still survive. We advocate such amendments to the pension law as will make adequate provision for all honorably discharged veterans of the late war, whose advancing years, wounds or other infirmities disable them from total or partial self-support. Those who saved the nation from dissolution should be saved by the nation from poverty; and we heartily commend the wise and friendly liberality shown by Commissioner Tanner and the brother soldiers in the conscientious discharge of the duties of his office.

That Election in School District No. 3—
Meetings to be held—The case of Suicide Frank A. Flogaus—Incidents in Court—Some Deductions, Etc.

The canvas of the vote in School District No. 3 was not completed until 6 o'clock last evening. The following was the result for Trustees:

Henry Beck (long term) 256
John Weiss (short term) 136
Michael H. Larkin (long term) 136
George Kerr (long term) 111
Enoch Carter (short term) 111

The following vote was cast for Collectors:

Joseph Larkin 396
Henry Jordan 136
Jacob Herold 110

The successful candidates were Beck, Weiss and Joseph Larkin. Henry Powers was elected Clerk without opposition. The finding of 36 ballots too many in the box caused bitter words to be spoken. George Kerr said that he would make affidavit that there were 11 ballots in one bunch. Michael H. Larkin, another candidate, said that he saw 11 ballots in one bunch taken from the box.

The Club's court grounds are situated on Andrews-street, between O'Reilly's woods and the Kingston City Toboggan Club's slide. There are four courts. Tuesdays and Fridays are "court days".

The coroner's jury in the case of the man found hanging to a tree at Steep Rocks, last night. Several witnesses testified. The remains were identified as those of Frank A. Flogaus, of Dutch Settlement. The following verdict was rendered:

The deceased came to his death at Steep Rocks, in the City of Kingston, on Tuesday, August 7, 1889, by his own hand, from strangulation produced by hanging, and that hanging was caused by the deceased was temporarily insane from aberration of mind.

It was stated that Flogaus when he left his home on Tuesday, had a gold watch and chain and \$25 or \$30 on his person. These have not been found. The funeral took place this forenoon from the Lutheran Church at Dutch Settlement.

A number of young people here have arranged a lemon lunch. An "expert" on such lunches says:

The invitations to the lemon lunch bear a lemon for a crest, and every body who attends wears a kind of lemon colored ribbon. Each one brings a lemon, too. Some young ladies of the hostess' family or acquaintance, the lemons to be used as they come, and put the seeds into a lemon colored bowl. The lemons are then cut in halves and the seeds are displayed in the decoration of her table. Everything is yellow, so far as possible—flowers, china, the border of the napkins and cloth. Each dish has the flavor of seasoning or garnishing of lemon. At the end of the lunch, the seed bowl is brought out, and each lady has a guess how many seeds it contains, the one guessing nearest receiving a prize of a piece of yellow china, the one making the worst estimate a lemon squeezer.

The "lunch" may be held in "Lindsey's Woods."

During the trial of a case here recently a witness was called to show the kind of clothes a citizen wore before his death, so as to compute their value. The answer came promptly: "Well, he was no dude." In the same case there was a dispute as to the value of an old-fashioned sleigh. One of the lawyers claimed the sleigh was valuable because it was an antique. "Why," said he, "sleighs like that are used here, and a good deal of money was paid for them." The man who had possession of the sleigh was of a practical turn. He said "it had wings on once, and then it was worth more, but now he would give it to any one who would take it away."

In Wappinger's Falls saloons are "closed" on Sundays. The Chronicle says:

Despite the fact that the saloons were supposed to be closed Sunday, coffee varnish must have been plenty somewhere, judging from the number that could not walk a cock's mark.

Saloon keepers here do not sell coffee varnish. They dispose of "schooners" and "growlers."

Yesterday an employee of A. McMillan & Company while driving on The Strand saw a snake, "about three feet in length," crawl from a coal pile in the yard of the Delaware & Hudson Canal Company's Lower Office, cross the road and climb the rocks and disappear under the stoop of the "Upper Office."

It is believed the reptile boarded a boat some where up the canal and "took a sail here."

It has been said that "the right of a child to be dirty, with good, wholesome, out-of-door dirt, is natural and inalienable. The baby who has not been permitted to make mud pies, and to construct sand pits and dirt embankments has been robbed of a precious birthright. There is health near to the soil, besides no end of fun."

A Mrs. Boice, of Middletown, alleges that she has been blind for 14 years, and that a "Faith Mission," now holding fair here, has effected a cure. "Ointment that came from Palestine," she states, was used. There are people here who believe the story.

A man who claims to be "an authority" says: "If the stem of a watermelon is withered but not dried up it is ripe. Then the weight tells. If it is heavy it is probably ripe. When it is light the water has evaporated."

Of interest to non-smokers here: A man of science in Vienna has published statistics showing that one smoker contracts diphtheria to three non-smokers. His theory is that tobacco smoke protects the throat against microbes.

POUGHKEEPSIE'S EXCISE MUDDLE.

It is Alleged Hotel Licenses Have Been Granted to Travelers to Larkins.

It is stated that the probabilities are that indictments will be found by the Dutchess County Grand Jury, now in session, against the Board of Excise of Poughkeepsie, for illegal granting of licenses.

The Poughkeepsie Eagle says:

The Grand Jury commenced the consideration of the complaint against Poughkeepsie's Board of Excise at a late hour on Wednesday, and will finish the matter one way or the other to-day some time. The matter has created considerable excitement. Well known people do not hesitate to say that an effort is being made to tamper with some of the members of the Grand Jury and get them to vote against an indictment.

It is alleged hotel licenses have been granted to persons who have neither the accommodations nor "make it a business" to keep hotels; that in instances where licenses have been granted hotels were not necessary, and that the right to sell liquor has been accorded to respectable places. In his charge to the Wappingers Falls Jury, which found indictments against Excise Commissioners there, Judge Barnard said:

It is not a hotel because there are three beds, and the law requires three beds. There is a building and the carrying on of a real business. Merely to stick three beds in one room and call it a hotel. In the next, with nothing else in the nature of a hotel, with no kitchen, no servants, no place to put baggage, no place to take care of travelers—that won't do. Beds won't make such a place a hotel. You did know better. You have granted a license improperly when there were no qualifications, and you did it in order to confer a greater privilege than the man was entitled to.

True Economy.

It is true economy to buy Hood's Sarsaparilla. For "10 Doses One Dollar," is original with true copy of this popular medicine. If you wish to prove this, buy a bottle of Hood's Sarsaparilla and measure its contents. You will find it to hold 100 teaspoonfuls. Now read the directions, and you will find that the average dose for persons of different ages is less than a teaspoonful. This is certainly conclusive and an unanswerable evidence of the peculiar strength and economy of

Hood's Sarsaparilla.

"We began using Hood's Sarsaparilla in our institution some months ago, and having watched its effects, wish to say that we find it a good, reliable and beneficial medicine for family use, and for hospitals and institutions such as ours." SISTERS OF MERCY, West Fourth-street, Cincinnati, O.

"I took Hood's Sarsaparilla for loss of appetite, dyspepsia and general languor. It did me a vast amount of good, and I have no hesitancy in recommending it." J. W. WILFORD, Quincy, Ill.

Health Better Than Ever.

"I have been troubled by a scrofulous affection a my life. It is one of the most marked recollections of my boyhood days, and for several years has rendered me unable to labor much. I think Hood's Sarsaparilla, which I have been using at intervals for ten years, is the best thing I have ever taken, and now 60, and my general health seems better than ever." H. D. ASBURY, Warren, N. H.

"I was run down from close application to work, but was told I had malaria and was dosed with quinine, etc., which was useless. I decided to take Hood's Sarsaparilla and am now feeling strong and cheerful. I feel satisfied it will benefit any who give it a fair trial." W. B. BEANSE, 261 Spring-street, New-York City.
